

SO-3000 SōLIS Bluetooth/Wi-Fi Stereo Smart Speaker with Chromecast built-in

Listen to in High Definition with Amazing Sound

Available Early October

Take wireless music listening to a whole new level of performance and enjoyment with the SōLIS SO-3000. The SO-3000 features Chromecast built-in, so choose from millions of songs from popular music services like Spotify, Google Play Music, and Pandora, or catch up on current events with NPR podcasts. New apps are constantly being added so there's no end to the music, online radio stations, and podcasts you can enjoy.

With the Google Home app you can stream music to a single speaker, different music to individual speakers, or create groups for multi-room listening. Simply tap the cast icon on any Chromecast-enabled app to begin streaming from your phone, tablet, or computer.

The SO-3000 also provides high res audio streaming, Bluetooth connectivity and an auxiliary input for connecting a wired music source. Two high performance three inch speakers in a non-resonant wooden enclosure are each driven by eighteen watts of power to fill any small to mid-sized room with clean and natural amazing sound.

The SO-3000's mid-century modern design with cloth wrap and high gloss black highlights will add a dash of high style to any room.

Leave no note unheard with the Solis SO-3000.
